

PROCESS DEVELOPMENT SYMPOSIUM EUROPE

La SECF vous prie de noter l'évènement cité en référence. Plusieurs membres de la SECF sont fortement impliqués dans les comités d'organisation et scientifique de ce symposium. Dans la continuité de celui de Francfort sur le Main de juin dernier, Process Development Symposium Europe 24 (PDS24) veut apporter des solutions innovantes aux acteurs et entreprises des industries de procédés. Retenez les dates du 26 au 28 juin 2024 à Nancy.

June 26-28, 2024 ENSIC, Université de Lorraine Nancy, France

The Process Development Symposium (PDS) series aims to give participants a forum to exchange wisdom, knowledge, tips, and personal experiences in the development and scale-up of chemical, petrochemical, biochemical, pharmaceutical and related processes. Building on the success of the 2023 PDS Europe where representatives from 31 companies participated, the symposium features a strong history of industry leadership & participation with a catered program reviewed by the selection committee, it is an opportunity for process development professionals from across the world to discuss their experiences with novel and innovative technologies to trigger radical changes in next-generation processes development and operations featuring presentations from process development professionals.

CALL FOR PROPOSALS TO PRESENT

The Committee invites any prospective presenters to submit an abstract for consideration through the online Call for Abstracts [aiche.org/PDSEurope/CfA](https://www.aida.org/PDSEurope/CfA).

SESSIONS INCLUDE

- Energy
- Decarbonisation
- CO₂ Valorization
- Manufacturing of the Future
- Circular Processing / Products / Plastics
- Water
- Bioprocesses for Health & Food
- Digitalization
- Safety & Security
- Impact Assessment of Products on Health & Environment

**CALL FOR ABSTRACTS DEADLINE:
FEBRUARY 15, 2024**

PRESIDENT

Jean-Pierre Dal Pont, SECF

ORGANISING COMMITTEE

Jean-Pierre Dal Pont, SECF

Coralie Desgranges, UL Propuls

Cody Hirashima, AIChE

Willi Meier, AIChE

Romane Ouegui, UL Propuls

Andrés Piña-Martinez, Université de Lorraine

Marie-Odile Simonnot, Université de Lorraine - CNRS

SCIENTIFIC COMMITTEE

Ulrich Bröckel
